NEWS OF THE MORNING.

More disastrous floods in Spain.

T. A. Atkinson, ex-Sheriff of Storey County, died in Virginia yesterday, after a two-years illness.

The arrangements for the funeral obsequies of Senator Chandler have not been made as yet, but the services will probably be held to-morrow.

It is now probable that Parliament will be dissolved in December. In that case the success of Gladstone in Midlothian will be more than doubtful.

While the bucket was being hoisted in the Double Standard Mine Bodie, yesterday the clutch became detached and two men named George Dougherty and Cornelius Haggerty were precipitated 150 feet to the bottom of the shaft. Both were badly injured.

Adelaide Neilson has accepted an engagement from Manager Maguire and Lucky Baldwin for a four weeks' season in California early next Spring. Neilson receives sixty per cent. of the gross receipts, with a guarantee that no nightly share shall fall below \$500.

It is rumored in well-informed circles that Russia is preparing to declare war against England. No certain information can be obtained on the subject, as the officials are reticent, but the probabilities are that the markets will be disturbed by the story.

John Church, foreman of the Virginia Enterprise office, stabbed another printer named Carrigan. The printers were gambling and Church ordered it stopped and ordered Carrigan to leave. A row ensued and Carrigan was stabbed on the left shoulder. The wound is not serious. Church gave \$1,000 bonds.

A tremendous explosion of fire damp occurred in the Delaware and Hudson mines at Mill Creek, Pennsylvania Sunday. George Wassire, Daniel Rupp, Zach Thomas and D. Jenkins have been taken from the mine. They were dead when found, and their bodies were horribly mangled.

The New York Sun says: The trouble about the Egyptian obelisk is that it is probably not worth transporting five miles, much less 5,000. The transportation contractors may make a handsome thing of it, perhaps, but the public will laugh at it when they see it. The other obelisk now in London is a wretched old lump.

Simon Wolf, on behalf of the Board of Delegates of the American Israelites, has presented a memorial to Secretary Evarts, urging that recognition of the independence of Roumania by our government be deferred until Roumania recognizes the doctrine of civil and religious liberty which was provided for by the Berlin treaty.

On the 28th an Indian came into Merritt's camp to have a peace talk. He was informed that Merritt had no authority to make peace. He then gravely told the General that if he would give up his arms, ammunition, horses and mules he would be allowed to leave with his men. After the Indian left the camp numerous signal-fires were observed in the neighborhood. Two companies of infantry were stationed at Snake river, to protect stores and furnish escorts for wagon trains with supplies for Merritt.

News of the death of Senator Chandler has called forth universal expressions of regret among officers of the Government, and is received with great sorrow by a very large proportion of the citizens of Washington, irrespective of politics. His long residence in that city and his kindness having gained him very many warm friends among all classes. Secretary Schurz, on hearing of the death of his predecessor, caused the flag of the Interior Department to be placed at half-mast and ordered the building draped in mourning. The President sent a telegram of sympathy to Mrs. Chandler.

HANCOCK AND PALMER.—The New York Sun, in a double headed communication, suggests the names of General Winfield S. Hancock, of Pennsylvania, and General John M. Palmer, of Illinois, respectively for President and Vice President on the Democratic ticket in 1880.

William F. White—the late candidate of the California Workingmen for Governor has been appointed one of the Bank Commissioners by Governor Irwin, vice Jas. Murphy, resigned. The appointment creates some excitement in political circles.

The Standard has declared a 50 cent dividend. So much more money for the Cook brothers.

Washington journalists are on the quiver for the appearance of the new paper that is to advocate the nomination of Gen. Grant.

VICE PRESIDENT.

There has been very little said about the probable Vice President in 1880. Senator Booth, of California, is said to be an aspirant for the nomination from the Republicans. Senator Sargent of the same State, is also spoken of. Judge Settle, of Florida, is mentioned in connection with the office, and his friends claim that the Southern Republicans will ask the second place for him, as they believe he can carry Florida and North Carolina, and thereby help the head of the ticket. Hendricks, of Indiana, and Palmer, of Illinois, are spoken of for the nomination on the Democratic ticket.

It is understood the President anticipates continued opposition from Congress when it assembles in December. It is his purpose to renew the nomination of Secretary McCrary for the vacancy in the Circuit made by the resignation of Judge Drummond during the first week of the session. Nominations for the English and Russian missions will be made, it is said, at the same time. While the names of the gentlemen to be sent in are believed to be above criticism there is but little hope for speedy confirmation of these appointments. For this reason it is deemed advisable not to make the selection known until it has been officially transmitted to the Senate.

Mr. Sherman will ask Congress at its next session for the passage of a law authorizing him to continue his refunding operations by exchanging four per cents for the bonds yet to mature. Of that portion of the public debt not yet refunded there are \$18,415,000 maturing December 31, 1880; \$261,321,350 maturing June 30, 1881, and \$945,900 maturing July 1, 1881. These bonds all bear six per cent. interest, and in addition to these are \$508,440,350 five per cents, maturing on the 1st of May, 1881.

Miners working for wages about Leadville get \$3, and carpenters at the mines get \$3 50—boarding themselves. Other mechanics' pay is about the same. In wet mines wages are from \$3 50 to \$4 per day, and, as the altitude is about 10,000 feet, the mines are very cold. The price of board is about \$6 per week, without lodging. Lodging accommodations are very poor.

A Frenchman said to his hopeful son:—"My boy, marriage is an honorable institution; therefore I would like to have you marry." "Very well," replied the dutiful boy. "I will forthwith wed my sister." "Your sister?" exclaimed the astonished parent. "But, it is not lawful to wed your sister." "And why not, sir? Did you not marry my mother, pray?"

BULLION SHIPMENTS.—On the 29th ultimo the Ophir Mining Company shipped twenty bars of bullion, worth \$75,837 36, and on the same day the Consolidated Virginia Company shipped bullion to the value of \$103,760 78, making a total of \$179,598 14.

The total property valuation in Elko county, as shown by the assessment roll, is \$3,011,992. Poll taxes collected for the year 1879, \$2,236. There is the sum of \$85,800 in the county treasury with which to redeem county scrip.

Ex-Minister Washburne has read before the Historical Society at Chicago a paper on "The Surrender of Lee, and the events of April, 1865," in which he interestingly gives his personal experience.

The public debt statement shows the decrease of the debt for October, to be \$10,352,905 62. The mission of the Republican party is not yet ended.

The Sierra Nevada mills will soon be started up again.—[Ex.] Hence probably the late \$2 assessment.

The first twenty miles of the Battle Mountain and Austin Railroad was opened for travel yesterday. So much less staging.

W. S. Van Dreillen has sold and transferred to Clugage & Parker, his entire interest in the Elko and Cornucopia stage line.

The San Francisco Post suggests that the Democrats nominate Grant. It thinks the country would then have peace.

Florence White, a woman of the town, committed suicide at Austin last Thursday night. She was tired of this world.

During October, Tascorora shipped \$96,493 09, and Cornucopia \$6,083 44 worth of bullion. Total, \$102,576 53.

The son of Worth, the man milliner of Paris, is said to be more skillful in designing costumes than the father is.

Grant had an ovation at Omaha. The "boom" will strike it on some of the Eastern fellows.

POLITICS AND POPULATION.

A Washington despatch to the Cincinnati Commercial says: "It is noticed here, by those who have interested themselves in the movement of population, that the States which have grown most rapidly during the past ten years are Republican. The State censuses, taken in 1875 by several of the States, and the vote since that time, show that Kansas and Nebraska are taking the lead in growth. The increase in Nebraska from 1870 to 1875 was at the enormous rates of 218 per cent in ten years, a growth almost unequalled in the history of the American States. Next to Kansas in rapid growth comes Minnesota and Colorado, staunch Republican States. The increase of political power that will be awarded to these States after the apportionment of 1881 will be very great, a condition of things which is not very comforting to the Democrats, who do not desire to see the seat of political power transferred to the stalwart Northwest. In speaking of this matter to your correspondent the other day, a leading Democrat remarked that while it was true that the seat of empire was going to the Northwest, and that all these States were Republican, yet there was at least one State which was growing with great rapidity and which was reliably Democratic. He referred to Texas, and predicted that this State would have 2,000,000 of inhabitants next year, and be entitled to about fourteen members of Congress after the next apportionment. But the vote of Texas does not show as large a per cent of increase as has taken place in many of the Northwestern States. The vote of Texas indicates a population of about 1,200,000, an increase of fifty per cent over 1870, which is very large, but not equal to some of the Northwestern States. It is computed from the vote of the several counties that the census next year will show Texas to have between 1,200,000 and 1,300,000 population, and Kansas about 1,000,000. Texas enjoys the distinction of being the only reliably Democratic State that is growing with rapidity."

EXPORTS FROM FRANCE.

General Fairchild, United States Consul General at Paris, in a despatch to the Department of State, dated October 10, calls attention to the significant fact that the exports to the United States from France are continually and rapidly increasing. For the quarter ending September 30, 1879, the value of the exports to the United States was \$12,532,152, which is an increase of \$2,527,773 over the corresponding quarter of 1878, and an increase of \$7,277,936 over the quarter ending June 30, 1879. Not only have the values increased, but the number of invoices is also much larger than heretofore.

AN AMERICAN CAPTAIN GENERAL.

The Sunday Gazette of Washington, (Democratic newspaper) publishes an editorial counselling Southern members of the party, on the re-assembling of Congress, to present and pass a bill creating the office of Captain General, with a salary ample to maintain the dignity of the station, and declaring him General in Chief of our armies during life.

CONDONING MURDER IN GEORGIA.—The trial of the men indicted for the murder of Joseph Standing, the Mormon elder, closed at Atlanta, Georgia, on the 25th ult., with the acquittal of the last man. There were two true bills, one for murder and one for riot, but it was impossible to get a verdict of guilty on either. The men are, therefore, acquitted. Three Mormon elders attended the trial and pushed the prosecution vigorously, but the men stood by each other and all escaped. The general impression is against the verdict. There are two of the parties indicted still at large, and the tendency of the testimony was to fix the guilt on them. Several of the native Mormons were present at the trial. The Mormon elders say that they will continue their work in Georgia, and will preach in Atlanta in a few days. So says an Atlanta dispatch.

F. P. Dewees, chairman of the National Executive Committee of the greenback party, has written a letter to a prominent member of the party in regard to unity of action in future political campaigns, in which he says:

To promote harmony a conference of committees representing greenback and labor organizations should be held. I am gratified to learn that this is also your view. I have since the receipt of your letter written to the Hon. Thompson H. Murphree, chairman of the National Greenback Congressional Committee, urging him to unite in the conference suggested, and I have no doubt but that he will do so, inasmuch as the Greenback Congressional Committee consists of our members of Congress. I would suggest further that the meeting be held in Washington during the first week in December.

It is now some two years and six months since Grant has touched a drop of liquor.

The New-York election to-day will be red-hot.

NORMAN HORSES FOR FARM WORK.

I would say in relation to the Normans, I have kept them for the last fifteen years with great success and find them to be first-class work horses. As to their standing hard work and hot weather I can say that I never owned but one horse—his breeding unknown—that I thought was as good as the Norman. I may differ with some in what a first-class work or farm horse should be. I want them to weigh at least fourteen hundred to fifteen hundred pounds each on short and well-shaped legs, to feed well and to walk four miles per hour. Such teams are found among the Normans more easily than any of the breeds of horses that I know. In Illinois we have very warm weather through corn tending and harvesting. If a horse can stand up to hard work and thrive, you can calculate the hot weather does not hurt him. I have had a great many big days' work done with my Norman teams. In the year 1868 I farmed 720 acres and used all Norman mares to do my work. I had one team that planted twenty-five and a half acres of corn in one day, with two men on the planter, and sold one of them the same Fall for \$600. She was jet black, and the pair weighed about 3,200 pounds. The Normans are always ready for their feed. Hard work don't take away their appetite, as it frequently does with many horses. If you give them a hard day's work. As a rule the Normans are kind and gentle. Horsemen well know that a nervous and high strung horse is not as likely to stand hard work as those which are mild in temper. The Normans are essentially mild tempered, and it is a rare thing to find one with a spavin or ring bone. They are very close jointed and compactly built, making them less likely to get bleached than if loosely built. As to their traveling I think they can go off ten or fifteen miles and back as quick as our common farm teams; but if I wanted a team especially for the road I should not take them or any other large breed of horses, although I have driven a Norman further in two hours than I ever did any other horse.—[Prairie Farmer.]

A STRANGE EXHIBITION.—W. F. Ensign, who has the reputation of being able to open almost any safe in the country, last night gave an exhibition of his skill at Platt's Hall. A Hall safe was procured, and this Ensign promised to "pick open." Tickets to the scene were sold at fifty cents each, and the result was that a goodly number of notorious cracksmen and others were present to pick up a little knowledge that might be of use to them in their calling. Detective John Coffey, however, quietly drove the most dangerous and best-known burglars out of the hall, and Ensign went to work. By the use of drills he bored into the lock, and by means of an inch pick knocked out the entire lock. The time consumed was forty minutes. Ensign claims that he could have done it in little more than half the time had he not been nervous and broke a drill. The combination of the inner lock was then reset by Mr. Elmer, of the firm of Will & Flint, and this door Ensign promised to open this afternoon without scratching the safe.—[S. F. B. O. N. Oct 31st.]

SENTENCED TO STATE PRISON. In the District Court yesterday, Ah Sam, convicted of frequenting an opium smoking resort, was sentenced to the State Prison for seven months. The case will be appealed to the Supreme Court to test the constitutionality of the Act under which he was convicted.—[Silver State Ist.]

IS YOUR LIFE WORTH 10 CENTS?—Sickness prevails everywhere, and every body complains of some disease during their life. When sick the object is to get well; now to say plainly that no person in this world that is suffering with "Dyspepsia," "Liver Complaint," and its effects, such as Indigestion, Constipation, Sick Headache, Sour Stomach, Heart Burn, palpitation of the Heart, Depressed Spirits, Biliousness, etc., can take Green's August Flower without getting relief and cure. If you doubt this, go to any Druggist and get a sample bottle for 10 cents and try it. Regular size 75 cents. Two doses will relieve you.

PEOPLE'S STORE.
PEOPLE'S
STORE!
PRESENTING THE ABOVE NAME TO
the people of this city and adjacent counties, we
desire to explain fully the motives and objects
of our business; the manner and style in which
we intend doing business, and why it is to the
interest of the public to support the views we
take.
Our business transactions will all be based on
the
STRICT CASH PAYMENT PLAN.
By this we mean that purchases must be ac-
companied by Cash, and

UNDER NO CIRCUMSTANCES
WILL ANY GOODS BE CHARGED.
Our motives for thus doing might, if not ex-
plained, seem exacting; but one moment—and
we shall ask you, "How do you expect to buy at
low rates, and pay for the following extra—
which, mind you, must and is always added to
the goods you buy?"

The following items we save, not for our-
selves, but for the patrons of our house:
First—We save the cost of a Book-keeper and
Collector.
Second—By avoiding the losses occasioned by
non-paying customers.
Third—By saving the interest at 1 per cent.
per month on \$2,000, invested in book accounts.
Fourth—By saving any commissions in charging
for goods that would be sold on credit.
Fifth—By always having the cash in the
drawer or the goods on the shelf, thereby saving
the expense of paying for goods before the book
accounts could be collected.
Sixth—And most important, by the reduction
in prices of goods we buy, for where we have
the ready cash to pay down for any article we
desire, we can always buy goods at a reduced
price, and naturally can afford to sell cheaper,
and yet have as much profit; for when buying
on time, and paying in three or four months
thereafter, a merchant certainly pays a higher
price for his goods than one who has the ready
cash to pay immediately. And it evidently al-
lows, and is an indisputable fact, that any house
doing a credit business cannot sell at as low a
price of one doing a

Strict Cash Business.
These theories demonstrate and convince
Scepticism itself, and are as solid as an ocean
rock.
Many an experienced eye will scan these lines,
knowing full well these living truths, which
cannot be disputed.

It is our intention to place the different lines
of merchandise we carry within the reach of
legitimate traders, and at such
GREAT REDUCTION
That our patrons not alone will cling to us, but,
with encouraging applause will urge us onward
to inaugurate the system of
SOLID CASH,
WHICH IS THE ONLY LEVER TO SUCCESS-
FUL MERCHANDISING.
We desire every purchaser of

DRY GOODS,
In each and every one of our Departments, to
thoroughly examine our stock and become con-
vinced that our rates for
Sheetings,
Hosiery,
Dress Goods,
Buttons,
Laces,
Silks,
Etc., Etc.,
ARE
Unequalled in Quality and Match-
less in Price.

MIDDLE-AGED MEN.
There are many at the age of thirty to sixty
who are troubled with too frequent evacuation
of the bladder, often accompanied by a slight
smarting or burning sensation, and a weakening
of the system in a manner the patient cannot
account for. On examining the urinary deposits
aropy sediment will often be found and some-
times small particles of albumen will appear, or
the color will be of a thin milky hue, again
changing to a dark and torpid appearance.
There are many men who die of this difficulty
ignorant of the cause, which is the second stage
of seminal weakness. Dr. S. will guarantee a
perfect cure in all such cases, and a healthy
restoration of the genital urinary organs.
